

Quality, Environment, Occupational Health, Safety (QEHS) and Responsible Care Policy

Farmson Group strives to enhance customers' and interested parties' / Stake holders' satisfaction by proactive management of Quality, Environment, Occupational Health & Safety (QEHS) for sustainable development, economic growth and maintaining competitive edge during manufacturing of all the products of Farmson group.

We ensure:

- Provision of resources and technology for prevention of out of specification products, pollution / wastage and accidents / ill health.
- Compliance of legal and other applicable requirements such as cGMP, Environmental/ Health/ Safety Regulations and Responsible Care principles.
- Continual improvement of Quality, Environment, Health and Safety Performance by Risk and Safety assessments, setting Objectives/Targets and pursuing programs to achieve the same.
- Promotion of awareness, worker participation & consultation, training & knowledge of best practices on QEHS for improving the skills and competence of employee including service providers and contractors.
